

U.S. CAPTURES HARBOR IN HARD BATTLE

TIGHTER RULES ADOPTED HERE ON MANPOWER

Stricter Control Established Over Job Changes in Marion Area.

Changes over manpower here have been stepped into a new phase. The new regulations are being put into effect to place a tighter control on the movement of workers who are engaged in war-essential work. The new rules are being adopted because they could help in doing less important work. The new rules have been adopted by the War Relocation Authority War Relocation Authority, which is administering the WNC labor stabilization program in Marion, Harpersburg and Morrow counties.

Under the new regulations, the War Relocation Authority has issued an order of the War Relocation Authority, which is administering the WNC labor stabilization program in Marion, Harpersburg and Morrow counties. The new rules are being adopted because they could help in doing less important work. HEART OF THE JAP-HELD SOLOMONS has been pierced by American forces, which have landed on Rendova island in the New Georgia group, only five miles from the big enemy base at Munda. The American drive is continuing against other points in the island area. The American thrust into Rendova island, indicated on the above map, was made at a point 175 miles northwest of Guadalcanal and halfway to the principal Japanese base on Bougainville island.

REELECTED HEAD OF UNIVERSITY TRUSTEES

John H. Clark Again President of O.N.U. Board

John H. Clark of 301 Franklin street, Marion, attorney, was re-elected president of the board of trustees of Ohio Northern university and Dr. Robert O. McClure, who previously was elected acting president of the university, was named president at an annual organization meeting of the board of trustees at Ada yesterday.

Dr. McClure was previously elected acting president and was to take office in that capacity today. As president he succeeds Dr. Robert Williams, whose resignation announced last January became effective yesterday.

Dr. McClure for the last two years has been Lima district superintendent of the Methodist church, which includes Marion. He was elected to the position of president of the board of trustees of Ohio Northern university and Dr. Robert O. McClure, who previously was elected acting president of the university, was named president at an annual organization meeting of the board of trustees at Ada yesterday.

Axis Given Hardest Blow of War by Allies in June

British and American Forces Strike from Three Directions with Worst Yet To Come.

LONDON, July 1.—Striking from three directions, the mighty air arms of the American and British allies subjected axis Europe to a design of destruction unparalleled in all history during the month of June, and for the enemy the worst still was to come.

During the month, allied aerial power reached out in rising fury from bases in Britain, in Northwest Africa and in the Middle East—with American and British fighters cooperating smoothly to keep the offensive going virtually around the clock.

These accomplishments stood out: 1. The unconditional surrender of the Italian fortress island of Pantelleria on June 11, first island ever conquered by air power alone; the subsequent capitulation of Lampedusa, Linosa and Lampione, and the pattern of destruction spread over Italy, Sicily and Sardinia.

2. The great destruction wrought by the RAF in its city bombing of the Ruhr valley, to whose concentrated industries Hitler looks for replenishment of his war machine.

Also significant were the two American Liberators, raids last week on axis airfields near Athens and Salonika, an aerial pinpointing toward a possible Balkan invasion route, and inauguration by the RAF of a bombing shuttle service between Britain and Africa with an important raid on both the outboard and homeward trips.

Jap Submarine Headed for Marion Visit Friday

Reception Group Headed by Band Scheduled To Meet U-Boat at City Limits Shortly Before Noon.

Preparations for the visit here tomorrow of the Japanese submarine captured at Pearl Harbor are virtually complete, the committee in charge headed by A. W. Kette, reported.

In connection with the visit of the sub Mr. Kette has urged merchants throughout the downtown area to display the American flag.

The submarine will arrive in Marion from Lima around 11 a. m. and will remain here until 3 p. m., when it will move to Mansfield.

Whether or not it will pause briefly at the Marion Engineer Depot on its way to Mansfield was uncertain.

Reception Plans

Members of the Harding High school band will board a truck tomorrow morning and go to the city limits on Kenyon avenue, where they, along with members of the county war bond committee, will meet the sub and Frank B. Parly, who is deputy administrator of the war savings staff for Ohio. Mr. Parly is accompanying the sub on its tour through Ohio.

The truck carrying the band and the hauling device used on the nationwide tour of the sub will then move to the courthouse where the sub will be placed on display. It will be parked on the east side of North Main street along the courthouse.

Bond sales since the announcement of the sub's visit to Marion and up to this morning total \$96,083.75, the county war bond committee reported this morning. Sales Tuesday and Wednesday totaled \$26,318.75.

Start of Tour

The sub began its nationwide tour at San Francisco last Navy day, Oct. 27. After Pearl Harbor and up until last September it rested in a concrete support at the submarine base at Pearl Harbor as a silent reminder of the greatest assault on the American Navy.

When the treasury department asked to borrow it for use as a bond-buying stimulant it was transported to Mare Island Navy yard, Calif., in the foredeck of a large freighter. At Mare Island it was taken apart and refitted with lighter materials which would permit cross-country travel.

Many parts of the sub which would add little to its usefulness showing were removed, such as a set of 104 heavy duty storage batteries, the motor and the two torpedoes. The torpedoes were replaced with dummy warloads and the batteries were replaced with light battery replicas. The motor was not replaced.

By stripping these parts the weight of some 35 tons was reduced by 50 per cent and cross-country hauling was made possible. Despite these reductions the sub and the cradling trailer device is still one of the heaviest devices ever moved over American highways.

Union County Girl Killed in Accident

MARYSVILLE, July 1.—Miss Mary Francis Mathews, 19, daughter of Mr. and Mrs. Clint Mathews of near Chubbuck, in Union county, was instantly killed, and John Carick, 20, of Plain City, was seriously injured when a panel delivery truck in which the two were riding skidded and struck a tree on Route 33 near here about 2 a. m. today.

According to a report of the Union county sheriff, Carick was driving the truck. Apparently it skidded on the pavement and crashed into a tree alongside the road. It then turned over in a ditch.

Carick was rushed to University hospital in Columbus, where it was reported he suffered a fractured collar bone, severe head injuries and minor cuts and bruises.

IN FULL COMMAND

GEN. MACARTHUR Runs Pacific Show

INVESTIGATION OF BEW LIKELY

Senators Byrd and George Favor Probe of Agency's Operations.

WASHINGTON, July 1.—A sweeping investigation into the policies and worldwide operations of the board of economic warfare (BEW) was projected by members of the Byrd committee today as Vice President Wallace gave notice the agency soon would ask congress for direct financing.

The inquiry resulted from a hot exchange in which Wallace, head of BEW, accused Commerce Secretary Jesse Jones of obstructing the board's acquisition of vital war materials.

James F. Byrnes, war mobilization director, summoned both to the White House yesterday for a peace-making conference, which apparently failed of its objective. Both principals promptly issued strong, mutually exclusive statements.

To Broaden Inquiry

Chairman Byrd (D-Va.) and Senator George (D-Ga.), a member, meanwhile told reporters the joint committee on production of non-essential federal expenditures would broaden a present inquiry into subsidiary corporations of the Reconstruction Finance Corp. (RFC) to look into the allocations and commitments made by BEW.

Wallace said in a statement last night that he and Jones had agreed to continue temporarily the arrangement by which the BEW draws funds from the RFC for its foreign purchases.

Miss Perkins, executive director, told the appropriations committee the BEW had issued directives to the RFC from April 12, 1942, to Feb. 1, 1943, calling for \$1,439,000,000.

In his statement Wallace said he had advised Jones at a White House conference with War Mobilization Director Byrnes that he had no intention of reflecting on Jones' patriotism when he accused the RFC head of obstructing the war program.

Wallace Explains

"I intended to assert that the delays in RFC in acting upon requests had delayed the war effort," Wallace said. "I did not state or intend to create the impression that his personal motive was deliberately or intentionally to delay the war effort."

Other difficulties have had to do with strong differences of opinion with regard to the quantities of various products to be obtained.

(Turn to BEW, Page 15)

65 JAP PLANES SHOT DOWN IN SEA, AIR FIGHT

Americans Lose 17 Planes and One Ship in Capturing Harbor Near Munda.

WASHINGTON, July 1.—American casualties of the central Solomon base captured by the Navy, near Japan's Munda base, the Navy announced today, after a fierce sea and air battle off Rendova island in which at least 65 enemy aircraft, 17 United States planes and one United States ship were lost.

Vanu, a port village, had been used by the Japanese as an outpost for Munda, which lies about 30 nautical miles to the northwest on New Georgia island, and had also been employed as a place for landing supplies. Its loss by the enemy marks the first specific American territorial triumph in the currently developing offensive of which the drive in the central Solomons is only one part.

The other part is being conducted by General Douglas MacArthur's forces striking toward the great Japanese base at Rabaul, toward which the offensive in the Solomons also is pointed.

Stimson Reports Progress

Secretary of War Stimson said at a press conference today that the operations were progressing satisfactorily according to plan under the general direction of MacArthur, but added that strong enemy resistance was expected.

The first such resistance, the Navy communiqué disclosed, came Wednesday morning a few hours after American troops landed from naval transports on Rendova island, five miles south of Munda.

The Japanese, at that time, counter-attacked with a force estimated at 110 planes of many types—fighters, Mitsubishi medium bombers, Aichi dive bombers and various others, including torpedo planes.

The attacks continued from the morning until late afternoon against United States naval forces putting troops and supplies ashore.

Under the fierce hail of enemy fire, anti-aircraft fragments and shell bursts the landing units continued their operations while American ships and planes battled the Japanese sky forces. Sixty-five of the enemy planes were shot down, "according to an incomplete report," and 17 United States planes were reported missing.

Transport Sunk

Torpedo planes of the Japanese squadron caught the 7,712-ton transport McCawley, formerly the Grace line's Santa Barbara, and disabled her after she had put her troops ashore. Subsequently the crippled vessel was assaulted and sunk by a Japanese submarine.

Reports indicate that all personnel were removed before the vessel sank and that there was no loss of life. The communiqué said.

American air forces, the communiqué brought out, also played a major role in the starting of the offensive in the Solomons area.

On Tuesday night (Solomon time) Avenger torpedo bombers and Dauntless dive bombers heavily attacked the Japanese airfield, stores and camp areas at Vanu.

(Turn to PACIFIC, Page 14)

Gen. MacArthur in Supreme Command of Drive on Japs

ALLIED HEADQUARTERS IN AUSTRALIA, July 1.—Twin prongs of a mammoth offensive against the Japanese in the south and southwest Pacific were thrust today by land, sea and air, with Gen. Douglas MacArthur for the first time in supreme command of operations.

They were as the times of a fork pointed west and north toward New Britain island where volcanic-studded harbor of Rabaul can accommodate a good-sized navy and whose airbases make of it a mighty air fortress.

The upper prong was at Rendova and New Georgia islands in the central Solomons where allied landings were made Wednesday.

The lower prong was formed out of unopposed landings on Trobriand and Woodlark islands off the southeastern tip of New Guinea and other landings on New Guinea itself at Nassau bay just north of Salamaua where fighting is in progress.

Biggest Drive of Year

The perfectly coordinated blows, with progress indicated at all points, comprised the first big push against the Japanese since

CHEST CLINIC TO BE HELD HERE JULY 7

Anti-Tuberculosis Association Reviews Work of Past Year.

The Marion County Anti-Tuberculosis Association is preparing for another of its monthly series of chest clinics at the Marion City hospital by Dr. Henry Bachmann of Delaware, clinician, with the cooperation of the county health

Our New Liability Insurance Policy

Covers... Claims caused by Dogs, Saddle Horses and other animals. Also many other features!

office. The clinic will be held on July 7, and subsequent clinics are already scheduled for July 22 and Aug. 4.

At its last clinic held June 2, the association rounded out its first year of regular chest clinics here. The June 2 session was held primarily to offer chest examinations to positive tuberculin skin test reactors in the city and county schools, and 20 students were given examinations.

Of this number six new cases of childhood type tuberculosis were found. Of 11 other patients examined two borderline adult type pulmonary tuberculosis were found, one new minimal adult type pulmonary tuberculosis was found.

One patient who was found to have a very early case of tuberculosis at a previous clinic but through following the instructions

clearly as apparently arrested and allowed to return to light work.

In sponsoring the chest clinics the Anti-Tuberculosis Association officials explain the purpose of early diagnosis of tuberculosis. Persons examined are referred to their family physician for this service. The family physician in turn receives a report of the X-ray findings and recommendations of Dr. Bachmann and then interprets these to his patients.

During the past year a total of 14 clinics have been held in 13 months with 413 patients examined. The results included 38 active cases of tuberculosis, 21 borderline active cases and 28 active childhood type cases found.

ONE WORLD—by Wendell Willkie

The book presents a new vision of the world as it is, and as it should be. It is a book of hope and courage, and it is a book that every man and woman should read.

Chapter Five

In Moscow I had two long talks with Josef Stalin. One of them was about the future of the world.

But about the most important thing I learned was that there is no reason to be nervous. He is one of the greatest men of his generation.

At his invitation I called on him one evening at 7:30. He appeared in his usual manner, in his study, at night. His office was a large room about 12 by 35 feet.

Stalin and I were standing in a room that was at the far end of a long oak conference table.

We talked for some three hours—about the war, about what would come after, about Stalingrad and the front, about America's position, the relationship of Great Britain, the United States, and Russia, and about many other important and unimportant subjects.

State Dinner

A few days later I spent some five hours talking next to Stalin, through the numerous courses of a state dinner which he gave for me later while we ate drink coffee at little tables in another room, and finally through a private showing of a motion picture of the siege and defense of Moscow.

Stalin, I should judge, is about 5 feet 4 or 5, and gives the appearance of slight stockiness. I was surprised to find how short he is, but his head, his mustache, and his eyes are big.

His face, in repose, is a hard face, and he looked stern in September—not much, as is so often reported, but desperately tired. He had a right to be.

He talks quietly, readily, and at times with a simple, moving eloquence. When he described to me Russia's desperate situation as to fuel, transportation, military equipment, and man power, he was genuinely dramatic.

Stalin told me again and again that his propaganda was deliberately designed to make his people hate the Nazis, but it was obvious that he himself had a certain bitter admiration for the efficiency by which Hitler had triumphed to Germany as much as 84 per cent of the working population from some of the conquered Russian territory.

Causes of War

When we talked of the causes of the war and the economic and political conditions that would face the world after it was over, his comprehension was broad, his detailed information exact, and the cold reality of his thinking apparent.

Stalin is a hard man, perhaps even a cruel man, but a very able one. He has few illusions.

His admiration for the effectiveness of American production methods would more than satisfy the National Association of Manufacturers.

On the personal side Stalin is a simple man, with no affectation or poses. He does not seek to impress by any artificial mannerisms. His sense of humor is a robust one, and he laughs readily at unsuitable jokes and repartee.

Once I was telling him of the Soviet schools and libraries I had seen—how good they seemed to me.

And I added, "But if you continue to educate the Russian people, Mr. Stalin, the first thing you know you'll educate yourself out of a job."

He threw his head back and laughed and laughed. Nothing I said to him, or heard anyone else say to him, through two long evenings, seemed to amuse him as much.

As I was leaving him after my first talk, I expressed appreciation of the time he had given me, the honor he conferred in talking so candidly. A little embarrassed, he said:

"Mr. Willkie, you know I grew up in a poor family. I was a simple man, with no affectation or poses. He does not seek to impress by any artificial mannerisms. His sense of humor is a robust one, and he laughs readily at unsuitable jokes and repartee.

"Russia is neither going to eat us nor seduce us. That is—and this is something for us to think about—that is, unless our democratic institutions and our free economy become so frail through abuse and failure in practice as to make us soft and vulnerable."

While on his world tour, of which he writes in "One World," Wendell Willkie visited China. He actually saw the war front. He is shown above with Captain Chiang Wei-ko, son of the Chinese Generalissimo by an earlier marriage, who was at the front with Willkie.

up a Georgian peasant. I am unschooled in pretty talk. All I can say is I like you very much."

Stalin's Program

Since I have returned to the United States, Mr. Stalin has defined the program, as he sees it, of the Anglo-American-Soviet coalition in the European war. These are the goals he calls for:

"Abolition of racial exclusiveness, equality of nations and integrity of their territories, liberation of enslaved nations and restoration of their sovereign rights, the right of every nation to arrange its affairs as it wishes, economic aid to nations that have suffered and assistance to them in attaining their material welfare, restoration of democratic liberties, the destruction of the Hitlerite regime."

Many among the democracies fear and mistrust Soviet Russia. They dread the inroads of an economic order that would be destructive of their own.

Such fear is weakness. Russia is neither going to eat us nor seduce us. That is—and this is something for us to think about—that is, unless our democratic institutions and our free economy become so frail through abuse and failure in practice as to make us soft and vulnerable.

The best answer to communism is a living, vibrant, fearless democracy—economic, social and political. All we need to do is to stand up and perform according to our professed ideals. Then those ideals will be safe.

We need to learn to work with Russia in the world after the war. For Russia is a dynamic country, a vital new society, a force that cannot be bypassed in any future world.

3 Sons in Service Give Their Mother A Happy Birthday

A Marion mother had a happy birthday Tuesday when she received reminders of the day from her three sons in the armed forces, two of them overseas and one in this country.

The mother is Mrs. Lavina Piazza of 212 Nye street. From two of her sons, Pfc. Edward Moore, stationed in Hawaii with the Army signal corps, and Second Class Seaman Eugene Moore, who is at the Little Creek, Va. Naval radio school, she received two long distance telephone calls early Tuesday night.

The third son, Pfc. Donald Moore, stationed in North Africa, contributed two presents at his share toward making his mother's birthday a happy one.

Mrs. Piazza said she was amazed how distinctly she could hear Edward from Hawaii, in the course of his conversation, he informed his mother that he expected to be back in the states soon.

Mrs. Piazza received another pleasant surprise when Eugene told her that he would be home for a short visit this week-end.

As a grand finale to the "birthday" as Mrs. Piazza termed Tuesday, a son tubelash and a play vase made by African natives was received in the mail from Donald.

OHIOAN DRAWS \$60,000

WASHINGTON, July 1—Charles H. Hays, president of the Hays Trust Co. of Canton, O., was awarded \$60,000 in salary and bonuses for his services during 1942, the company's annual report filed with the securities and exchange commission showed yesterday.

Shipbuilding is the biggest single item in Wisconsin's war contracts, with the first fleet of submarines to be launched on the Great Lakes coming from Manitowish, Wis., ways.

Townsend Picnic Set for Sunday

SAMUEL H. STILLE

Samuel Harden Stille, historian, orator and poet, will be guest speaker at a Townsend rally and picnic, sponsored by Townsend clubs No. 1, 3 and 4 of Marion, at Garfield park Sunday. Mr. Stille's address will be on "Americanism."

The author of "Ohio Builds a Nation," "You," and "The Call of the Hills," Mr. Stille owns his own publishing house and school of handicrafts, expression and applied philosophy of living located at Lower Salem, O.

The picnic dinner will be at noon, and the program in the pavilion will take place at 2 p. m. R. V. Roller, general chairman, will open the meeting with singing of "America" and salute to the flag. Rev. D. N. Kelly of the Wesley Methodist church will pronounce the benediction, and Guy Laubis of Kenton will sing. Music will be furnished by the Townsend quartet and the Victory band. Mr. Stille will be introduced by Mrs. Rhena Addis of Findlay. Group singing of "The Star Spangled Banner," followed by the Townsend pledge and benediction, will conclude the program.

No admission will be charged, but an offering will be taken.

FORMER JUDGE DIES

CLEVELAND, July 1—Thomas S. Dunlap, 75, former appellate judge and son of one of the founders of Wooster college, died yesterday at his Cleveland Heights home.

GETS STATE POSITION

COLUMBUS, O., July 1—State Welfare Director Herbert R. Mooney announced appointment of John C. Waldner, of Columbus as chief of the department's division of business administration, \$1,800-a-year post.

Cincinnati Painter

Dies in Prison Chair

COLUMBUS, O., July 1—Anthony Treat, 37-year-old Cincinnati painter, died last night in the electric chair at Ohio Penitentiary for the slaying of 10-year-old Helen Sellers last Christmas Eve.

Treat lost his last apparent chance to escape the chair when Gov. John W. Bricker denied a stay of execution requested by Treat's lawyer.

The lawyer asked time to present the case to the governor in full but Bricker said he refused.

the stay after the lawyer admitted that he could offer no more evidence than already had been presented in court.

Contending to the fact that he was innocent and should not be executed, the painter wrote Warden Frank Henderson yesterday that it would be "irrestful" to send him to the chair.

Treat was arrested four hours after the Sellers girl's body was found beneath a freight shed in Cincinnati, but maintained for three days that he was innocent. Then he confessed, Cincinnati police said.

An annual examination is of SUPREME importance in conserving your ability to see well.

GRACE JUSTICE OF MARION DIES

Grace Justice, daughter of Mrs. Justice, died at the West Center street hospital in Columbus Saturday.

Surviving are a daughter, Serob Jean and a sister, Mary Catherine Shumway, both at home, her mother and stepfather, August Porter, both of whom live at 475 Elgin court.

Funeral will be 2 p. m. Saturday at the Smith Home for Funerals. Rev. Lawrence Runkle will be the minister. Burial will take place at the Marion cemetery.

The body is now at the home of the mother at 475 Elgin court. Friends may call there until 11 a. m. Saturday and between 12 noon and 2 p. m. Saturday at the funeral home.

FIRST RAVENNA FATALITY
RAVENNA, O., July 1—First accident fatality in the two-year operation of the Ravenna ordinance plant occurred yesterday when a power mower overturned and crushed Stanley McNulty, 50, of Akron.

Mrs. Justice was a member of the Sunday School class of the Trinity Baptist church. She also was active in the Mary A. Canfield Lodge No. 210, Daughters of America.

Surviving are a daughter, Serob Jean and a sister, Mary Catherine Shumway, both at home, her mother and stepfather, August Porter, both of whom live at 475 Elgin court.

Funeral will be 2 p. m. Saturday at the Smith Home for Funerals. Rev. Lawrence Runkle will be the minister. Burial will take place at the Marion cemetery.

Manpower Control Tightened

(Continued from Page 1)

establish that his present employment does not utilize him at his highest skill or that he is not being employed full time, or (d) has compelling personal reasons for wishing to change employment, or (e) is employed at substandard wages as defined by the war labor board.

One of the changes just made in compliance with an executive order of President Roosevelt raises a new obstacle in the path of workers who seek to change jobs to make more money. It provides, "No statement of availability shall be issued solely on the ground that an individual's wage or salary rate is substantially less than that prevailing in the locality for the same or substantially similar work."

Control Strengthened

The committee strengthened its control over the transfer of workers into the Marion area or out of the area by one of its amendments which requires an "inter-area clearance" for such moves. Under former regulations, a worker could get a statement of availability from his last employer or the USES and presumably go job shopping anywhere in the United States. Under the new rules, the statement of availability is good only in the four counties that are a part of the Marion area. If he wants to take a job outside the area, he must first expose himself to assignment to work at his highest skill within the area. If there are no such job openings in the area, he can get an "inter-area clearance" to some other specific area, but under no circumstances can he get a blanket clearance that will let him travel from one city to another to offer his services to the highest bidder. This rule was adopted particularly because of a critical housing shortage in some other areas.

Here is the regulation affecting migrants:

"All workers from outside the area (in-migrants) must register with the USES before entering employment in the area and shall not be referred for employment by the USES unless the in-migrant presents a statement of inter-area clearance issued by the local office of the USES in the area in which he has been last employed, and they will not be referred to job openings unless and until all local workers qualified for such job openings have been placed."

"Essential" Requirements

Another regulation provides that "essential workers who have been employed in essential activity during the preceding 30 days may only be hired by employers engaged in essential activities. Employers engaged in non-essential activities shall not hire any worker who during the preceding 30 days was engaged in an essential activity provided, however, that the USES may refer a worker to an employer in a non-essential activity if such referral would be in the best interests of the war effort and no increase in wage or salary rate is to be involved."

Seniority rights, a bugbear in any employment stabilization effort, are dealt with specifically in one of the new regulations. "A critical or essential worker who has been granted a statement of availability shall have his seniority and reemployment rights preserved in accordance with the following provisions: (a) When the transfer has been made in the best interest of the war effort, or when the transfer has been authorized because the worker was employed at less than his highest skill or for less than full time, the worker shall maintain and accumulate seniority with his original employer during the period of his transfer. Workers transferred for other reasons shall not be protected on seniority. (b) Transferred workers shall apply for reemployment with their original employer within one week after separating from the job to which they originally transferred. If the separation occurs during the war, or within 40 days if the war shall have ended. No worker applying for reemployment with his original employer shall be refused reemployment on account of physical condition if such worker's physical condition is substantially the same as when the worker was originally transferred."

Copies of the committee's revised plan for stabilizing employment in the area, including all of

MILITARY POLICE UNIT STATIONED IN CRESTLINE

Force Quartered in Former Furniture Store.

CRESTLINE, July 1—A group of military police came to Crestline Wednesday and are using as barracks the room recently vacated by the Campbell furniture store.

The government has leased the room for three years. The room has been changed, making it habitable for a place for the soldiers to sleep and eat.

The M.P.'s came here from Lima and it is stated will devote their time to riding trains out of Crestline and taking care of ordinary work found in railroad terminals.

Mrs. Dickinson Leaves
Marysville Reformatory

MARYSVILLE, O., July 1—Mrs. Agnes B. Dickinson, discharged Columbus attorney, left the Marysville reformatory on parole today after serving 18 months on an embezzling charge. She entered the reformatory in December, 1941.

Liberty

THROUGH THE YEARS, as Independence Day came and went, how many of us ever paused to properly appreciate the liberty that is our heritage.

THIS YEAR, HOWEVER, we all know that our freedom is a Divine blessing to be prayed for and that, among the fruits of man's endeavor, the sweetest one of all is Liberty.

New Auto Use Stamps

Go Into Effect Today

Sales of new auto use stamps, which go into effect today, amounted to about 2,000 yesterday in Marion. Postmaster L. L. Lamborn reported today. He believes this figure represents the peak of new stamp sales. The postmaster also reported quite a few sales were made this morning.

Selling of new stamps began June 10 and the number of sales has steadily been on the upgrade since then. Price of stamps will decrease next month and each following month. However, no person may drive his or her car after today until one of the new stamps has been purchased at the postoffice.

PLAN HORSE SHOW AT GALION JULY 5

Program Worked Out for Holiday Event.

Special to The Star
GALION, July 1.—Horses will have their comeback when they are the feature of Galion's Fourth of July celebration, Monday, July 5, at Heise park. The celebration is the third annual observance sponsored by the Junior Chamber of Commerce.

The horse show on the day's program is the first of its kind in Galion, and beginning at 3 p. m. will be shown in eight classes. Gay Minnie ponies, open horseman, at three and five years, shown at three gait, three gaited horses and five gaited horses. Tennessee walking horses, pleasure horses and Western horses. In classes three to seven, inclusive, trophies, ribbons and prizes will be awarded.

Following the horse show, the day's activities will begin at 2 p. m. with a parade. This will include floats, bands, horses with customed riders, military units, and civic organizations.

CLASS HOLDS PICNIC
A picnic was held Tuesday evening by the Mother's class of Epworth Methodist church, Mrs. C. J. Zimmerman, president, was presented a gift as she is leaving the city in the near future. Mrs. Marion Tatham was chairman of the committee in charge of the picnic.

Kadgar Grotto Stag Fish Fry Saturday

Final arrangements for the Kadgar Grotto stag fish fry were announced today by the committee in charge. The party will start at 2 p. m. Saturday at the Fairgrounds.

All Grotto members and their friends are invited and approximately 350 are expected. The fish are being supplied by Captain Deaver of Sandusky.

A vaudeville show will be presented under the grandstand and several performances will be given during the celebration. A. B. Crenshaw, president, is in charge.

Plans have been made to hold the party under the shelter of the grandstands in case of inclement weather.

About 500 cargo vessels were required to carry the American Expeditionary Forces to North Africa.

Marion's Day Nursery Nearing Completion for Sunday Event

Equipment Being Installed, Redecoration Work Now Under Way at New Center on Hill Street.

Marion's Day Nursery on Hill street is nearing completion this week and is being prepared for its formal opening, in the form of a silver tea to be held there Sunday. The community is invited to attend the tea between hours of 4 and 6 p. m. Sunday.

Finishing touches are being added to the eight-room house to convert it into a Day Nursery where working mothers may leave their children in pleasant surroundings, assured of capable supervision, nourishing food and a healthy routine of play and rest.

Painters and carpenters are working swiftly and steadily this week to have the nursery ready for the inspection of the general public Sunday.

The children will be checked in on the enclosed back porch where there are coat racks and a blackboard informing mothers of the schedule for the day and the menu. The children will then be ushered to a small downstairs room where small stands with individual wash basins line the wall. Blue and white towels and washcloths are furnished, and a clothes hamper for soiled ones. The room will accommodate 30.

Large Playroom
A large front room will serve as a playroom. Blue cabinets housing all manner of toys, donated by the City Fire department and other Marionites, line the wall. A piano is needed to complete the entertainment facilities of the room. The linoleum were donated by the Child Conservation League.

At naptime, cots will be set up in the playroom and wash room. The dining room, located to the right of the playroom as you enter, will be the most attractive room in the nursery, furnished with small tables and chairs. Mrs. John E. Matthews is painting a border, which she designed, around the room. She has worked out a color scheme to match the striped wallpaper. All the animals, with which children are familiar from their picture books, are shown in action in various scenes on the border surrounding the room.

The animals are: burros, llamas, camels, zebras, giraffes, bears, elephants, leopards, rabbits, cats, foxes, turtles, frogs, lizards, kangaroos, birds, monkeys, and calves. One circus scene shows a clown, monkey, elephant and a bareback dancer on a circus horse. A farmer boy is found in one view of the series. Mrs. Matthews, who is donating her services, is being assisted by Miss Eleanor Plunk.

Colorful Dining Room
Adding to the attractiveness of the dining room are gaudy ruffled curtains at the windows and colorfully printed oil cloth covers for the little tables. The tables will be set with pastel dishes.

Among the equipment in the kitchen, which will be used for its normal purpose, is an electric stove and an electric refrigerator. The stove and part of the money for a railing and rubber trends will be added to the back stairway which will be used by the children.

Two emergency sick rooms are being made out of two upstairs bedrooms, and another is being converted into an office for the director. The bathroom is painted white, and an upstairs sunporch will be used for children with a Vitamin D deficiency. A maroon lounge is to be placed in the hallway for mothers waiting to register.

Nothing has been overlooked. Even the wallpaper will be waxed to avoid a display of little finger-prints.

Food Schedule
The children who are checked in at 8 will sleep until 7:30, and after breakfast will join the later arrivals at 8 for play. Fruit juice will be served at 10 and lunch at 12. Following their milk at 2, they will nap until 3. Then they will play until 6 when the day at the Day Nursery ends. One volunteer worker will be assigned to each 10 children.

The day care is planned for children over two and under school age. A fee of 50 cents per day will be charged to each child. Special registrations will be taken this week only from 10 until 12 noon at 116 North State street.

The work on the Day Nursery is being donated by members of the CIO and AFL labor unions. Members of the Marion Union Station confere for service men will assist with the Day Nursery

Officers Selected By Protected Home Circle

A meeting of the Protected Home Circle was held Tuesday evening with the following officers being elected: Mrs. Dorine Eason, president; Mrs. Viola Martin, vice president; Mrs. Laura Kraus, guardian; Mrs. Leslie Smith, chairman; Mrs. Alice Anderson, secretary; William Levin, secretary; and Thomas Kneas, watchman.

The first meeting in the new headquarters, Democratic hall on West Center street, will be held tomorrow at 8:30 p. m. Memorial services have been postponed until July 9. The service was originally planned for tomorrow evening.

At the silver tea Sunday, the public will have an opportunity to inspect the nursery. The tea will be held at the nursery at 136 Hill street between the hours of 4 and 6 p. m. This will present an opportunity for mothers contemplating work to inspect the nursery.

Arrangements for the tea are being made by members of the house, social and entertainment committees, headed by Mrs. J. B. Holloway, chairman of the social committee. The committee is composed of Mrs. Paul Lust, Mrs. John Jacoby, Mrs. Ernest Smith, Mrs. R. L. Poland, Mrs. Eugene Willey, Mrs. H. R. Mouser and Mrs. Robert J. L. March.

Mrs. J. Malvina Strelitz is chairman of the Day Nursery committee.

Light Frosts Reported
from Hardin County

KENTON, O., July 1.—Light frosts were noted in lowlands of a Hardin county on both Tuesday and Wednesday nights but there was no damage to corn or truck crop, growers said. The temperature dropped to 40 degrees on both nights, in the wake of a week of 80-degree temperatures and frequent thunder storms.

AROY C. GOOD OF REED AVENUE DIES

Illness Fatal to Marion City Employee.

AROY C. Good, 64, of 216 Reed avenue died today at his home at 11:20 a. m. after an illness of six years.

He was born Sept. 23, 1875 in Paulding, O. to Mary Rich and George Good. Mr. Good married the former Miss Mabel H. Rowan, Nov. 14, 1911, in Portsmouth, N. H. He was a member of the Assembly of God church and had been a city employee for a number of years.

Surviving are two sisters, Mrs. Rebecca Powers of Fint, Mich. and Mrs. Eva J. Hester of Reed avenue, seven children, Roy C. Good of Dayton, Mrs. Demora Sunsera, Canton, O., Mrs. Gladys Stanton Smith.

Dr. McClure Honored by Ada Kiwanis Club

Special to The Star

KENTON, July 1.—Dr. Robert O. McClure of Lima, superintendent of the Lima state hospital, was honored and presented with the Ada Kiwanis and Rotary clubs gave a reception dinner in the Ada Methodist church. One hundred and sixty attended.

Guest speakers included Bishop H. Lester Smith of Cincinnati, Dr. C. V. Thomas of Cleveland, president of Penn college, and Perry Ford of Columbus, an alumnus and friend of Dr. McClure.

MARENGO — Staff Sgt. and Mrs. Kenneth Smith of Georgia are spending a 14-day furlough with his parents Mr. and Mrs. Sunsera, Canton, O. Mrs. Gladys Stanton Smith.

SGT. J. F. OSBORNE IN AERIAL BATTLE

Marion Woman Rescued in Fortress Crew.

A woman has received a grandson who was a Flying Fortress crew member, crashing into the sea off the coast of England.

Margaret Busard of 1015 State street, The Grand, St. James F. Osborn, a Flying Fortress crew member, when it figured in a battle with enemy aircraft from an attack on the coast of England.

She is remembered by the crew whom he met in the air from a Huntington, Ohio, man, who was sent to Mrs. Busard by an Associated Press man from London of the air.

It is read, in part: "The Flying Fortress 'Old Ironsides' was shot down to fall with bullet wounds with Pocke-Weisschmitts lasting into the night off the Belgian coast."

while returning from Tuesday's attack on Hulls, it was disclosed today, but the crew was rescued within 30 minutes.

"Old Ironsides" was on its first mission. . . . Peak (Lt. Buster Peak of Texas, pilot) was on his first mission and was taking a fresh crew over. When "Old Ironsides" was finally ditched three engines were out of commission, the tail wheel was blown off, the landing gear dragging, the hydraulic system out of order, the radio transmitter hit, the top of the vertical tail shot off, the pilot controls useless and all the windows in the cockpit and nose were blasted out.

"After many attacks on the way to and from the target 'Old Ironsides' was losing height at the rate of 100 feet a second over Holland and was down to 5,000 feet when Peak ordered the men to throw out the guns and ammunition. After the guns were gone two Pocke-Wulfs continued the attack on the helpless plane. When the Fortress hit the water it broke in two. The crew reported destroying five German planes during the running.

"The men were picked up from dinghies by an RAF high speed rescue launch while two Spitfires circled overhead."

Sgt. Osborne, son of the late Mr. and Mrs. Donald J. Osborn, made his home in Huntington with an uncle and aunt, Mr. and Mrs. I. I. Mansell but was attending the Seventh Day Adventist academy at Mt. Vernon, O., when he enlisted in the service last fall and received his training at Scott Field, Ill., Salina, Kan., and the Harlingen, Tex., Aerial Gunnery school. He is a great nephew of Dr. B. D. Osborn of Waldo and Richard Osborn of Prospect.

Two other Ohio men were members of the crew, Lt. Chauncey Hicks of Chesapeake, bombardier, who downed two of the German planes, and Lt. G. B. Williams of Columbus, navigator.

Names of Ohioans In

Jap Prisons Released

By The Associated Press

WASHINGTON, July 1 — The war department announced today the names of U. S. soldiers from Ohio interned by the Japanese as prisoners of war. They are:

Sgt. Crayton Burns—Charles J. Burns, father, Wheelersburg.

Sgt. Herbert R. Gordon—Mrs. Carrie Gordon, mother, Zanesville.

Tech. Sgt. Joseph J. Hrupcho—Mrs. Mary Hrupcho, mother, Port Clinton.

Staff Sgt. Benjamin F. Kimmerle—William, Frederick Kimmerle, father, Springfield.

Staff Sgt. Steve J. Kruchowsky Jr.—Mrs. Mary Kruchowsky, mother, Marblehead.

Staff Sgt. Floyd T. Niday—Mrs. Ollie Niday, mother, Springfield.

Staff Sgt. Joseph J. Wierzonon—Mrs. Francis Wierzonon, mother, Port Clinton.

Union Hears Talk

on Navy's Seabees

The story of how the Seabees, construction battalion of the Navy, are aiding the war effort was told to members of Marion Local Teamsters' Union No. 632, AFL, at a recent meeting by Chief Petty Officer John J. Dugan, recruiter in charge of the Marion Navy recruiting station.

He emphasized that the Navy is calling for skilled construction workers and men handy with tools willing to undertake the Seabees' mission of both fighting and building on the war fronts.

Mr. Dugan was introduced by D. L. Martin, acting chairman of the union. Other guests intro-

duced were Charles F. Parshall, inspector for the railroad department of the public utilities commission, and Norman Driscoll, state representative for the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America.

The Stars Say—

For Friday, July 2

BEING prepared for some sudden and quite unpredictable situation, and ready to grasp it with direct energy and courage

as well as with skill should result in promotion, preferment or other honor or favor. This may result upon the love life as well as on domestic and social or romantic adventures. Those whose birthday it is are on the threshold of a rest

of unlocked for opportunity for advancement or promotion in position, with preferment and favors from those in high places as well as from public, community or group sources. This propitious time should be grasped with clever and ener-

getic attack, but within the bounds of logic and reason. Enhanced popularity and prestige should have happy reactions on the private affections, probably in sudden engagements or marriage or sentimental, social or domestic celebrations of public importance.

A child born on this day should be richly endowed with forces and faculties as well as with exceptional opportunities to forge to the front in its career. It may enjoy a happy and romantic life.

Answers Clear Tax Problems

Q. Still confused by the new tax law? Here are the answers to the most frequently asked questions.

Q. How do I figure my tax liability?

A. The new law provides a method for figuring your regular income tax liability. It is based on the amount of your income for the year, less the amount of your deductions and exemptions.

Q. How do I figure my tax liability if I have a dependent?

A. If you have a dependent, you can claim a deduction for each dependent. This deduction is based on the amount of your income for the year, less the amount of your deductions and exemptions.

Q. How do I figure my tax liability if I have a dependent and I am married?

A. If you are married and have a dependent, you can claim a deduction for each dependent. This deduction is based on the amount of your income for the year, less the amount of your deductions and exemptions.

Q. How do I figure my tax liability if I have a dependent and I am married and I have a dependent?

A. If you are married and have a dependent, you can claim a deduction for each dependent. This deduction is based on the amount of your income for the year, less the amount of your deductions and exemptions.

PLEADS GUILTY TO ESPIONAGE. Erwin Harry de Spetter, 53, (left) who pleaded guilty when arraigned before a U. S. commissioner in New York City on charges of collaboration in espionage work for the German high command, leaves the hearing room escorted by U. S. Marshal Spencer C. Young.

LIPPMANN

(Continued from Page 6)

men in office of men who cannot and do not fill the office, throttles all the way down the line.

The pregnant argument against a third term, as we now see it in practice, is that it has stopped the circulation of the new men who ought to be able to rise to the top. There is now at the top a tired and rapidly aging administration. Yet the life of any government, and especially of a democratic government, depends upon the advancement of men who prove themselves worthy. In Washington today no younger man can get to the top because there is a third-term office holder permanently fixed there.

Yet with two or three notable exceptions—the case of highly trained and devoted public servants like Secretary Stimson and Secretary Ickes—the heat and

burden of the war management is carried by men at the second, third and even lower levels of administration, and by men who preside over agencies which do the work, but lack the vision, the dignity and the support that belong to the established departments of government. The President is a poor judge of human nature, and he is disregarding the wisdom of political experience, if he will not see how much it would energize, and indeed electrify, his whole administration if he removed some of the place holders and then promoted younger men who are serving the country so well.

Let him remember that the rule of military affairs applies also in civil life: an aggregation of men is to have initiative, discipline and a high spirit, every private soldier should have the right to believe that in his knowledge he carries a marshal's baton.

Fort Rees, Calif., was originally a Russian military and trading post established in 1811-12 on territory claimed by Spain.

GASCO DOUBLE DUTY NEWS

REPORTING WARTIME ACTIVITIES OF THE OHIO FUEL GAS COMPANY ON THE HOME AND INDUSTRIAL FRONTS

CAN AT HOME IS WAR DEMAND

Home Service Nutrition Centers Offer Housewives Canning Help

GAS COMPANY SERVES MANY ARMY-NAVY "E" PLANTS

Ohio recently was cited as having more war plants who have been awarded Army, Navy or Maritime Commission recognition for outstanding production records than any other state in the Union. Many of these plants use gas in their manufacturing processes. Gas has proven its value as a war production fuel time and again.

The Ohio Fuel Gas Company is providing industrial gas service to thirty-eight of these Ohio plants in its operating territory who have been awarded the Army-Navy "E," the Navy "E" or the Maritime Commission "M" for excellence in their production records. We congratulate these firms. We are proud that gas service is playing a part in their production achievements and in the drive for Victory.

PREPARE NOW TO CONSERVE NEXT WINTER

Now—this summer—is the best time to prepare your home for winter. With another war-time winter facing us, it is going to be important that every family conserve all the fuel possible. It is true, too, of homes that heat with gas—the fuel that is playing such a vital role in war production.

There are many ways to cut fuel consumption in your home. The installation of storm windows and doors, the insulation of roofs and walls, weatherstripping, caulking of windows—all of these things not only will help conserve fuel this winter, but, also important, will cut your heating costs.

Conservation is an important word in America's war effort. Apply it in your home in every possible way.

SAVE WASTE FATS

Housewives can play an important part in the manufacture of war explosives by saving waste fats in their kitchens. Save all fats that can't be reused in cooking—every spoonful counts. Here is all you do:

1. Strain drippings, grease, etc., into a wide-mouthed can.
2. Store it in a cool place until you have a pound.
3. Sell it to your meat dealer regularly.

Gas Company Home Canning Exhibit

This attractive and informative home canning display may soon be seen in the Home Service Nutrition Center located in The Gas Company office in your community. Modeled after the famous Dr. Elliott's Five Foot Shelf, it will display fruits and vegetables processed by the more popular home methods.

Housewives of this community will be extended a special invitation to inspect "The Gas Company Five Foot Shelf of War-time Home Canned Foods" which will be on display in The Gas Company office here sometime next month.

This unusually attractive and informative display has been designed to assist homemakers with their home canning program. It provides display space for actual specimens of fruits and vegetables processed by the popular home methods. This processing is done in The Gas Company experimental Home Service Kitchens by members of the Home Service Department. Methods used are water bath, pressure cooker, open kettle and oven canning; dehydration or drying method, and pickling and preserving.

Fruits and vegetables are canned just prior to the height of their season so that the display is kept timely and illustrative of the different methods for processing various foods.

Watch for this display early next month. Ask about it on the next trip to The Gas Company office.

Complete "Garden To Pantry Shelf" Program Planned

Free Demonstrations. Literature Featured

An all-out food preservation program to assist housewives in their home canning problems has been launched by the Home Service Department of The Gas Company. Every phase of home food processing will be covered in this "Victory Garden to Pantry Shelf" Program. It will include a series of demonstrations which will be given on request before interested groups and conducted by qualified home economists. Individual problems and questions about canning and all phases of food preservation will be answered at the Home Service Nutrition Centers by these specialists. Displays of home processed foods will be featured in the Nutrition Centers. Free literature including The Gas Company's new canning book will be available at the Centers.

It is planned to follow a seasonal schedule with the program extending throughout the entire canning season. Special emphasis will be given to the processing of vegetables and fruits at the height of their respective seasons.

In addition to the more popular home canning methods, other forms of food preservation will be included such as drying, freezing, pickling and preserving. The storage of food will be covered in this comprehensive educational program.

Nutrition Bulletin Is Monthly Feature

Thousands of housewives are receiving helpful tips on nutrition, meal planning, buying under point rationing, victory gardening, home canning and other important wartime food problems from The Gas Company's monthly Nutrition Bulletin. These bulletins are published by the Home Service Department. Material is gathered from authoritative sources, condensed and presented in an easy-to-read style.

Here are some of the subjects covered in the current issue for July: a full page of helpful canning tips and short cuts, how to make the best use of kitchen fats, notes on Victory Gardening, a new development in oven drying.

You can get copies of the Nutrition Bulletin free at all Home Service Nutrition Centers.

Point Saving Menus For Hot Summer Days

By MRS. PAULINE TREISCH, Home Service Department

Whether you grow your own or carry them home from the market, fresh vegetables are taking the pressure off rationed foods and relieving transportation.

V-Garden salads are a welcome first aid for languid summer appetites. Chop 'em all—raw spinach, lettuce, cauliflower, snap beans—and pile lightly in those popular individual wooden salad bowls. Marinate with your own favorite oil dressing or save those precious red stamps and use vinegar, sugar, and seasonings.

For a hearty main-dinner, serve Sautéed Surprise Tomatoes. The savory flavor of the cream cheese and toasted crumbs will make you forget it's a meatless menu!

SUMMER MENU

Sautéed Surprise Tomatoes
Raw Carrot, Radish, Celery Relishes
Bran Muffins
Apple Crisp

"SAUTÉED SURPRISE TOMATOES"
6 small to medium firm tomatoes
Salt and pepper
1 1/2 pkts. cream cheese
2 Tbsp. chives or scallion tops, finely chopped
2 eggs, slightly beaten
1 1/2 C. cracker crumbs, finely rolled
3 Tbsp. cooking fat

Select firm slightly underripe tomatoes. Do not peel them. Slice each tomato in four slices, saving the ends for next day's soup or mixed salad. Sprinkle slices with salt and pepper. Place the cheese and work in the chopped chives or scallion tops. Season with salt and pepper to taste. Spread tomatoes with cheese mixture

CANNING BOOK PROVES POPULAR

The Gas Company's new canning book, "Home Food Preservation in Wartime" is proving extremely popular among housewives in every community where they are available. This attractive 16-page booklet is printed in three colors, contains information on all phases of home food preservation. Subjects covered include canning by the water bath, pressure cooker, oven and open kettle methods. Instructions for drying and freezing, also, are included with a section devoted to food storage. Complete canning time-table charts for fruits and vegetables appear in the booklet.

Housewives have indicated that the compact, easy-to-follow form of the book is particularly appealing. Copies can be secured free at the Home Service Nutrition Centers located in Gas Company offices.

Red Cross Mobile Canteens Do War Service

Here is one of two Red Cross Mobile Canteen feeding units set up and ready for action. These units have been built and are maintained by The Gas Company as another war service to the communities in which it operates. They are placed at the disposal of the local county Red Cross Chapters. Primarily designed for war emergencies, they are used for trial feedings, canteen training and exhibition purposes. Further information concerning their availability and operation may be had by contacting the local Gas Company office.

LATE FLASH! CANNING CONTEST COMING

Liberal cash prizes and hundreds of premium ribbons will be awarded in The Gas Company's Canning Fair to be held late in September. While details of the big canning contest have not yet been completed, it will be open to all customers of The Ohio Fuel Gas Company and awards will be made in a variety of classifications. So, housewives, from now on set aside a few of your "bestest" jars for entry in this contest and watch the next DOUBLE DUTY NEWS for complete details.

Candlelight Service
Held at Caledonia
Special to The Star
CALEDONIA—The Church of Christ held its second candlelight service for 32 members in the armed forces. The pastor, Rev. F. Sturtevant, gave the invocation. Rev. C. R. Strickler of Kirkpatrick conducted devotions and led in prayer. Music was presented by Mr. and Mrs. Lester Mason and Mrs. John Hickson of Buffalo, N. Y. As each member's name was called a relative of close friend went forward with a candle which was lighted at the altar and a communion cup was set aside for that member. Letters from some of the boys were read. Salute to the flag by the congregation was led by Mrs. Wade Blancy.
Plans are being made for union services of the three Caledonia churches in August.
Sgt. Ray Mead has returned to Camp Brackett, Fla. after a 15-day furlough with his wife, Mrs. Alberta Williams Mead.

Army Air Forces Commission Won by Marion Pilot
Carl Richard Keller son of Mr. and Mrs. C. S. Keller of 244 West Church street, was graduated from the Army Air Forces advanced flying school at Stockton Field, Calif., and received the coveted silver wings June 18, according to a report from Stockton Field. On June 22 he was commissioned a second lieutenant.
Lt. Keller entered the ground crew school of the Air Corps June 9, 1942, and became an air cadet last September. He received his pre-flight training at Santa Ana, Calif., and his primary and basic training at Tucson, Ariz. His final and advanced training was completed at Stockton Field where he was graduated and received his wings.
A graduate of Harding High school in the class of '39, L. L. C. R. Keller Keller was active in football and the H-Y club. He was a secretary and clerk in the traffic department at the Erie Railroad before entering the service.
Lt. Keller and his wife, the former Norma Webb, daughter of Mr. and Mrs. Arthur Webb of 258 South Vine street, are spending a furlough with their parents here. Mrs. Keller has been living in California with her husband, but will remain in Marion a few weeks after Lt. Keller reports at Base, Idaho, July 1.
Capt. King Keller, a brother of Lt. Keller, is stationed with the anti-aircraft artillery at Camp Mead, Calif.

U. S. FIGHTER PILOT BAGS 2 NAZI PLANES
Messerschmitts Blown Up by Thunderbolt's Guns.
By The Associated Press
LONDON, July 1—Capt. Charles T. Lendon of Long Beach, Calif., pilot of an American Thunderbolt fighter, shot down two Messerschmitt-109 fighters while his squadron was escorting a fleet of Flying Fortresses in Tuesday's daylight raid on Le Mans, France.
"A formation of Messerschmitts came in on the bombers," he said today. "I went after the first one and let go a burst. Pieces flew off the plane, smoke billowed up and one of the wheels came down, but somehow or other it stayed in formation."
"I came around and let go again and the second just blew up. Then I dived under the Fortresses and came up on the tail of another Messerschmitt. He wasn't more than 55 yards away. I fired eight—as pretty as anything I have ever seen in all my life." There are 1,817 miles of canal in the Netherlands.

Ohio Pilots Bring Big Bomber Home with Life Raft Lodged in Rudder

By WILLIAM F. BONI
AP Wire Correspondent
SOMEWHERE IN NEW
GUINEA, June 29 — (Delayed)—
The twin-engine Mitchell
bomber, a bullet-riddled rubber
liferaft jammed into the right side
of its stabilizer, staggered down
the metal-stripped runway and
came to a stop. A crash wagon
and ambulance were waiting.

The co-pilot's window on the
right side of the cockpit slid
back. A round, close-cropped
head popped out and looked down
at Doc Brown, the unit's flight
surgeon, sitting in the cab of his
ambulance.

"Everything's going to be all
right, Doc," said Second Lieut.
Carl M. Denlinger of Dayton, O.
"Just throw a little dirt in my
face. I can't wait to see what
it feels like."

Thus ended the first mission,
and an epic one, for Denlinger, for
the pilot, Second Lieut. Jack W.
Snyder of Brewster, O., and for
their four crewmates in the Army
B-25.

Snyder and the others were
briefed for the mission almost
as soon as they arose yesterday
morning. Their plane took off as
part of a sizeable formation of
B-25s.

Freak Accident

Over the target area, a freak ac-
cident caused the liferaft, atop
the plane amidships, to come
adrift. Driven back through the
air by the slipstream, it crashed
into the stabilizer—the long hori-

zontal fin set into the tail of the
fuselage—and in the process, took
along three aerial wires which
tangled themselves around the
raft as it became wedged into the
stabilizer.

The plane immediately was
thrustled down to below 150 miles
an hour only a few hundred feet
above a valley. The boys were 200
miles from home.

With the raft on the stabilizer,
the plane's nose kept rising. Much
as they tried, Snyder and Den-
linger were unable to push the
controls forward by hand. Once
the plane rose so steeply it
stalled and began to slideslip. The
lads thought they were goners
for sure. They caught her just in
time.

"We figured there was no use
trying to fight the controls by
hand, so the two of us sat back,
put both feet on the controls and
shoved for all we were worth,"
Snyder said.

Behind them, the enlisted men
were doing all they could to work
the raft free. The engineer, Staff
Sgt. Hyman Prosten of Brooklyn,
N. Y., hung out the small rear
window until its sharp metal edge
cut across his thighs and the slip-
stream threatened to blow his
body back toward the tail.

As the plane passed over the
mountains its flying speed fell to
within a few miles of the stalling
speed and remained there the
entire 200 miles back to the base.
The vibration at the ship's after
end was so severe that the lads
discovered after landing that the

stabilizer had begun to work
loose from the fuselage.

Somewhat — don't ask them how
—they brought her home. "And
set her down, don't forget that,"
added Snyder.

The pilot rubbed his legs rue-
fully. That seemed to remind
Denlinger, and he tentatively
flexed his knees, then winced.
They still were aching from that
half-hour with feet braced and
legs pushing on the controls.

"Anyway," said Snyder, "all our
stuff but the target area—we al-
most did, too!"

BIRTHS

J. I. Huebner of Hotel Marion
received word yesterday that a
daughter, Lynn Mary, was born
Tuesday to his daughter and son-
in-law, First Lieutenant and Mrs.
Odell L. Bernius, at St. John hos-

CHARLES E. COOPER DIES IN HOSPITAL

Funeral Services To Be Held
Saturday Afternoon.

Charles E. Cooper, 63, of the Keener place, died at 6 a. m. today at City Hospital, after an illness of six weeks. Born Dec. 25, 1879, in Marion county, he was the son of Albert and Missouri Horn Cooper. His father was a native of Marion county and his mother of Adams county.

His last wife died in 1938 and he married in 1940 Mrs. Margaret L. Cooper, Jan. 3, 1942. He attended the Baptist church.

Surviving he left a wife, Mrs. Margaret L. Cooper, of Marion, Ohio, and a daughter, Mrs. Ray Co. of Marion, Ohio. Mrs. Ray Co. is the daughter of Mrs. Ray Co. of Marion, Ohio. Mrs. Ray Co. is the daughter of Mrs. Ray Co. of Marion, Ohio.

Funeral services will be conducted at 5:30 p. m. Saturday by Rev. Ernest Finkbeiner, pastor of the Emmanuel Baptist church, at the St. Andrew-Denise funeral home. Burial will be made in the Marion cemetery. Friends may call at the funeral home after 7:30 tonight.

MRS. ADDIE IDEN, 90, DIES AT DENMARK HOME

Was One of Pioneer Telephone Operators.

Special to The Star

EDISON, July 1.—Mrs. Addie Warren Iden, 90, widow of Lloyd Iden, died in her home at Denmark at 7 a. m. today after a short illness. She suffered from a heart ailment. Born July 6, 1852 in Utica, N. Y., she was married to Mr. Iden Nov. 28, 1878. He died Sept. 21, 1938 in Kansas. Active in the Denmark Methodist church, Mrs. Iden was a member of the age of 14. She was a telephone operator in Denmark many years ago, when the instruments first came into use. Surviving are a foster daughter, Mrs. May Warren Carmon of Cleveland, two nieces and three nephews. Funeral arrangements are not yet complete.

REELECTED

PACIFIC

(Continued from Page 1)

Vila, Kolombangara island, in the Solomons.

On Wednesday morning Mitchell medium bombers, Dauntless and Avenger bombers attacked Japanese defensive positions and the camp area at Munda. A large fire was started. There was no mention of attacks on Japanese ships or shipping.

The Navy said the captain of the American ship lost was Commander Robert Henry Rodgers, 41, a native of Knoxville, Tenn., who makes his home at Staten Island, N. Y.

The transport McCawley, according to Jane's Fighting Ships, standard reference work, carried a five-inch gun, three three-inch guns and various smaller weapons and had a normal complement of 197 crew members with a transport capacity of about 1,000 persons.

Observers expressed belief Tokyo's warlords could not much longer avoid another open test of sea power. If they hope to stem the coordinated land, naval and air drive that began with announcement American forces had landed on Rendova island and was followed quickly by a series of amphibious assaults on key points of the New Guinea area.

That Gen. Douglas MacArthur personally is directing the whole action underscored the full dress nature of the campaign now under way. As allied forces moved into positions from Nassau bay on the north coast of New Guinea to Rendova and New Georgia islands in the central Solomons—fighting in some places and unopposed in others—it appeared a gigantic pincer movement was being aimed at the strategic and heavily fortified enemy base at Rabaul, on New Britain. Rabaul generally is regarded as the center of the whole Japanese structure in the south and southwest Pacific areas.

It was believed here the enemy might be compelled to throw battleships and aircraft carriers, cruisers, destroyers and submarines into a major counter-offensive. Loss of Rabaul not only would expose the supply lines which link all of Japan's conquered territories in that whole area but would give the allies a jumping-off place for an assault on the big enemy naval base at Truk island, 1,000 miles to the north.

There was no word on the size of the forces involved, but it was assumed they were powerful since Secretary Knox recently disclosed a great fleet had been assembled in the south Pacific. Other authorities have reported a steady strengthening of all forces in the Solomons.

Stimson Reports

Satisfactory Progress

By The Associated Press
WASHINGTON, July 1.—"Satisfactory progress" by American forces battering the outer Japanese defenses of the south Pacific was reported today by Secretary of War Stimson.

He disclosed at a press conference that the drive which has taken American troops to Rendova in the central Solomons and Woodlark and Trobriand in the New Guinea area was planned at a conference in Washington several weeks ago of commanders from the Pacific area, and is proceeding on schedule.

"Our forces have reached the outer defenses of Japan and strong enemy reaction may be expected," Stimson said.

He spoke of the campaign against the Japanese in the south and southwestern Pacific as a "coordinated attack on land, sea and air forces."

General Douglas MacArthur, he said, is directing combined operations in those areas and reports are incomplete but satisfactory progress apparently already has been made.

American railroads now have 500,000 fewer cars and 20,000 fewer locomotives than they had in 1917.

First Naval Trainees Due at O.W.U. Today

Special to The Star

DELAWARE, July 1.—Some 373 enlisted men were to arrive here today to become members of Ohio Wesleyan university's first U. S. Naval V-12 training unit. Lt. Trusdel Wistner, commanding officer, announced. About 70 of these were expected to be former Ohio Wesleyan students. About one-third were to be freshmen taking basic training. The men will be on the campus to take four 16-week semesters of training.

Some 600 Wesleyan Naval Flight Preparatory school cadets will take part in Delaware's Fourth of July celebration Monday night. They will parade to Selby stadium and present drills.

RAF PLANES BLAST AXIS LOCOMOTIVES

French Coastal Areas Target
of Attack.

By The Associated Press
LONDON, July 1.—Enemy targets along the French coastal area were reported under attack by allied planes last night as Britain itself passed the seventh consecutive night without a raid.

British Mustangs, Typhoons and Spitfires had a field day yesterday with axis transportation in France and Belgium by shooting up more than 20 locomotives to boost the bag to well over 30 in a 24-hour period. Two planes failed to return.

A German radio broadcast recorded by The Associated Press said Red Cross trains, each by allied planes last night, were being used to remove mothers, children and old persons from that bomb-ravaged district.

Dispatches from Bern, Switzerland, reported that the great allied air offensive has produced a serious housing shortage in the frequently-bombed districts.

GENE KRUPA FACES TERM OF 1 TO 6 YEARS IN PEN

By The Associated Press

SAN FRANCISCO, July 1.—A mandatory prison sentence of from one to six years hangs over the head of Gene Krupa, 34, drum-beating leader of a nationally known dance band.

Yesterday juvenile court jury convicted Krupa of using a minor—his valet and property man, John Patekios, 20—to transport narcotics. Under the California act, which the jury found Krupa had violated, probation is barred specifically.

The drummer will come before Judge Thomas Foley in juvenile court tomorrow for formal sentencing.

He now is serving a 90-day jail sentence assessed when he pleaded guilty on May 18 to the misdemeanor charge of permitting Patekios to possess narcotics.

Rubber Workers' Pay Raise Reaffirmed by WLB

By The Associated Press

AKRON, O., July 1.—Normal production was reported today at three major Akron rubber companies following the national war labor board's reaffirmation of a wage decision limiting increases for 50,000 CIO unionists to three cents an hour.

Affected were employees of the Goodyear Tire & Rubber Co., the B. F. Goodrich Co., and the Firestone Tire & Rubber Co., all of which were closed by strikes for five days after the board's original decision was announced last May 22.

Only one minor, short-lived work stoppage developed last night as a result of the WLB's latest action, which Sherman H. Darymple, international president of the CIO United Rubber Workers' Union, described as unjust.

Iceland has many geysers and hot springs.

MACARTHUR

(Continued from Page 1)

Georgia place Japan's comparatively new and well developed air base at Munda within artillery range. Above Munda, only the Japanese held northern Solomon islands stand between it and Rabaul itself.

Even closer to New Britain island is Salamaua, on a one-mile isthmus extending into New Guinea's Huon gulf and looking across Dampier strait. The landing forces at Nassau bay were reported to have moved swiftly inland and are in contact with the enemy.

The mighty air arm of Lieut. Gen. George C. Kenney struck coordinated blows in this new offensive. His big four-engine Liberator and Flying Fortress bombers rained nearly 23 tons of explosives down on the main bases at Rabaul, one of the main bases from which Japan might parry the allied thrusts with its own air force. Meanwhile, Mitchell two-engine bombers bombed and strafed the Salamaua sector in support of operating there.

The scene of the Rendova-New Georgia operations is approximately 200 miles northwest of American-held Guadalcanal and 450 miles southeast of Japanese-held Rabaul. Salamaua is approximately 1,000 miles southwest of Guadalcanal and 450 miles southwest of Rabaul.

MORE SURPRISE AIR RAID DRILLS SET FOR OHIO

Two Set for Next Week Affect
Counties in This Area.

Plans for surprise air raid drills in additional districts of the state were announced today by Ralph H. Stone, state defense director. The Associated Press reported. Two of those announced today will affect counties in the Marion area.

When District No. 2 holds a surprise drill some time next week, Crawford county will participate. Other counties in the district include Sandusky, Seneca, Erie, Huron, Richland, Ashland and the eastern half of Ottawa.

District No. 4 also will hold a drill next week, and Hardin and Adams counties will take part. Other counties in that district are Van Wert, Mercer, Putnam, Allen, Auglaize and Hancock.

Similar drills will be held throughout Ohio within the next few weeks, officials said.

Marion, Morrow and Delaware counties are in a district for which a surprise drill is scheduled this week.

The bluetfish is considered the most ferocious and destructive fish for its size in the world.

It is a large, deep-bodied fish, with a pointed snout and a large mouth.

It is a voracious feeder, eating anything that fits into its mouth.

It is a common fish in the Great Lakes and in the St. Lawrence river.

It is a dangerous fish to handle, and should be kept in a secure container.

It is a beautiful fish, and should be kept in a large aquarium.

It is a popular fish for children to keep, and should be kept in a secure container.

It is a common fish in the Great Lakes and in the St. Lawrence river.

Initiative Seized by U. S. Troops in Pacific Attack

By DEWITT MACKENZIE

While Washington is silent regarding the scope of the new offensive in the Pacific, the important art movements that we retain the initiative and are on the move.

Secretary of the Navy Frank Knox summed the thing up succinctly in his speech in Los Angeles yesterday when he said that the purpose of the new drive was to divide where the next blow will be struck in the Pacific theater with our side, and it will continue to rest with us for the duration.

We shall do well not to rush to the immediate conclusion that the operation already carries our recent, the beginning of a wholesale offensive. However, it already appears to be more than a minor operation. It looks as if we intended to do a hop-skip-and-jump westward through the islands, and two logical objectives, among numerous points which might be equipped, are the big Jap bases in New Britain and Northeast New Guinea.

The prospect is fascinating, and if things go well the drive might swing into a very big operation.

Action in Europe

Meanwhile, British Premier Churchill's statement that it's probable there "will be heavy fighting in the Mediterranean and elsewhere before the leaves of autumn fall" invites us to the pleasurable anticipation that the already fast-moving allied war machine may hit high-gear in the European theater soon.

Mr. Churchill purposely leaves considerable to the imagination. However, if his declaration that there will be heavy fighting not only in the Mediterranean but "elsewhere" means elsewhere in Europe, then he may be talking about a general onslaught on Hitler, that is, invasions from several directions.

Should this mean invasion of western Europe it certainly would be a happy answer for Russian Generalissimo Stalin, who is pleading for that second front right now, at what he regards as the opportune moment. Indications are that he himself is all set for a violent blow at the Dnieper in conjunction with a major Anglo-American onslaught.

Of course the time element is a big factor. If a general offensive against the all highest could be got under way well before winter arrives to hamper fighting with bad weather, there's no telling how far the allies might push the Nazi chief by the end of the year. It might be a very long way.

In this connection the colorful British skipper phrases in our article the phrase "before the leaves of autumn fall." Well, that gives us a fair amount of lead way for speculation. The experts tell us the astronomical fall, the autumn begins September 22 and ends about December 21. However, the popular conception of the fall is rather different.

Time Left Uncertain

In the United States we generally look on September, October and November as autumn. But in England many people think of it in terms of August, September and October. Your guess is as good as mine as to just what Churchill means by "autumn." Still, whatever period he has in mind, if America, Britain and Russia can hit Hitler from all sides before winter is too close, it might give wonderful results.

We are assured that pending the arrival of autumn the Anglo-American air navies will increase their terrific blasting of western Europe until "there is no industry or military target in Germany that will not receive as we deem necessary the concentrated application of the exterminating force."

Every day that his hammering continues, der fuhrer's knees sag so much the more.

Into this general picture, which the British prime minister certainly doesn't view through dark glasses—fits perfectly his statement that June is "the best month we have ever known in the war" for the destruction of enemy submarines. The allies are regaining the mastery of the seas, and our ships are criss-crossing the oceans with the cargo upon which the aerial offensive and the coming land invasions depend.

Thus as Hitler's resources are being swallowed up in the defense of the bombs, the striking power is increasing by leaps and bounds. That combination of facts spells the victory which is now absolutely certain for the United Nations.

I don't take Churchill's statement as meaning that we must wait until autumn to witness heavy fighting in the Mediterranean. As previously pointed out in this column, as things now stand we may get an invasion of Sicily and perhaps Sardinia at any time.

OWI Closing Offices As Funds Are Slashed

WASHINGTON, July 1.—The office of war information is closing 12 regional and 36 branch offices, including three in Ohio, because congress has voted to slash funds for domestic services.

Ohio offices affected are re-

gional headquarters in Cleveland and branches at Columbus and Cincinnati. The shutdowns began last midnight as the fiscal year ended.

WALTER J. MACKEN
IS TAKEN BY DEATH

Former Marion Clothier.

Funeral Services Saturday for

Walter J. Macken of 322 Edgewood drive, former Marion clothier, died in a Columbus hospital yesterday at 5:45 p. m. He had been seriously ill since last Friday.

Born in Marion in William Macken and Margaret Burke Macken, the parents' names of Macken, he married Miss Kathryn Miller in St. Mary Catholic church here Oct. 24, 1932.

He started to work for the Huber Mfg. Co. here at the age of 15 and became a member of the first steam shovel put out by the company. Employed 17 years there, he went into the clothing business with John Cleary and Ed Stager operating "The Manhattan" store on South Main street. After eight years he became associated with Hughes and Cleary for five years and then helped set up a clothing business partnership under the name Macken and Smith on East Center street. He was in business there 13 years.

He was a member of St. Mary church and of the Holy Name society of the church of the Catholic Knights of Ohio and of the Marion Council No. 671, Knights of Columbus. He was a charter member of the K. of C. council established here in 1902 and a member of the building committee of St. Mary church.

Surviving besides the widow, Mrs. Kathryn Miller Macken, are a daughter, Mrs. Carter Patton of 322 Edgewood drive, and one grandchild.

Funeral services will be conducted Saturday at 9:30 a. m. in St. Mary church by Rev. Father William J. Spickerman. Burial will be made in St. Mary cemetery. Friends may call at the I. A. Axe and Son funeral home on 311 Vernon avenue after 7:30 tonight.

MRS. CLARA FEAVER CLAIMED BY DEATH

Passes Away After Long Ill-

ness; Funeral Saturday.

Mrs. Clara Pearl Feaver, 50, of 443 Ballentine avenue died at 4:30 a. m. today in her home after an illness of five years.

Born Feb. 26, 1893 in Alma, Mich., she was a daughter of William W. Nesbitt and Emma Houghtaling Nesbitt, the father a native of Fremont, O., and the mother of Alma, Mich. She was married to William John Feaver in Detroit in December of 1917. A resident of Marion 16 years, she came here when the family moved from Fremont and was a member of Oakland Evangelical church.

Surviving besides the husband are the parents, Mr. and Mrs. W. W. Nesbitt of Fremont, a daughter, Mrs. Robert J. Ebert of Euclid, O., and a son, James B. Feaver, radio man third class in the U. S. Navy, stationed at San Diego, Calif., three sisters, Mrs. R. C. Kennedy of Battlereck, Mich., Mrs. Lester Heil of Cleveland and Mrs. M. J. Hoffman of Fremont, and a brother, Paul E. Nesbitt of Detroit.

Funeral services will be conducted Saturday at 2 p. m. in the Oakland Evangelical church. Rev. J. R. Dallas, pastor, will be in charge with Rev. E. E. Nietz of Columbus giving the sermon. Burial will be made in Marion cemetery. Friends may call at the home after 7:30 tonight. The body will be removed from the home to the church at 10:30 a. m. Saturday.

Nazis Report British
Shift Troops for July 3

By The Associated Press

LONDON, July 1.—The German-controlled Paris radio said today British troops stationed in northern England and in northern Ireland had been transferred to southern England "in anticipation," it is believed, of events scheduled for July 3.

Alexis broadcasts since Monday have been alternately suggesting and discounting this coming Saturday as the possible date of an allied invasion attempt. The Paris broadcast was recorded by The Associated Press.

FOOD SUBSIDY PLAN BLOCKED

Congress Votes Ban on President's Proposal To Roll Back Prices.

By The Associated Press WASHINGTON, July 1.—Congress, handing the Roosevelt administration another legislative setback, yesterday forbade use of subsidies to push down retail food prices and ordered the meat-butter price rollback ended by Aug. 1.

The action was taken in the face of repeated declarations from high government officials, from President Roosevelt down, that without subsidies it would be extremely difficult if not impossible to hold the line against inflation.

Consequently, some legislators anticipated that the President may veto the ban which was incorporated in legislation extending the life of the Commodity Credit Corp. for two more years from midnight tonight and adding \$750,000,000 to its present \$2,650,000,000 lending powers.

However, the measure was approved in both senate and house by far more than the two-thirds majority which would be necessary to override a veto. The senate vote was 160 to 32, and the house vote, 62 to 13.

Other legislators suggested that Mr. Roosevelt might be reluctant to disapprove the measure since this would halt the agency's lending programs to farmers and, for the time being at least, put it out of business.

As finally sent to the White House, the prohibition against use of subsidies to lower food prices represented a compromise between differing bills approved previously by the house and the senate.

Baptist Guild Group of Area at Green Camp

Miss Jean Mossberger of Green Camp was hostess Tuesday evening to the World Wide Guild association council of Marion Association of Baptist churches. Mrs. Richard Griffith of Prospect was in charge of songs and devotions were led by Miss Virginia Crabtree of Marion. Mrs. Harriet McPherson of Prospect conducted the business session. A picnic, July 5, at Prospect park, was announced. All guild girls and ministers and their families in the association are invited.

Baptist churches represented at the meeting were Prospect, Green Camp, Trinity, and the Trinity and Five Memorial churches of Marion.

The next meeting will be a winter roast at the Roadside Park near Newmans Sept. 7.

Labor Wage Rates Set in Crawford County

By The Associated Press CLEVELAND, July 1.—The regional war labor board announced today soundly tested going rates for unskilled labor in six Ohio cities.

Lewis M. Gill, regional WLB chairman, said the rates are ceilings above which the WLB may not approve increases, except in accordance with the Little Steel formula, or in rare and unusual cases.

Rates for unskilled labor approved were:

57 1/2 cents an hour—Bucyrus, Gallon, Crestline and Lancaster. 60 cents an hour—Findlay. 65 cents an hour—Fostoria.

Milk in Healthful Dishes

NEWMAN
In seeing that
you get the full
benefit of milk, you
should use it in
dishes. Also that
of the milk as
it is made your
own adult. Simple
dishes are a help to

wishes, stewed fruit, cookies, milk
or tea.

Dinner

Bacon Lima Beans with toma-
toes, tossed green salad, buttered
carrots, butterscotch mousse, cof-
fee.

Lima Beans with Tomatoes.
Two tbs. bacon fat, 1 medium-
sized onion, minced, 3 fresh toma-
toes, 1 tsp. salt, 1 tsp. sugar, 1/2 tsp.
powdered cloves, 2 c. shelled lima
beans.

Heat bacon fat, add onion and
cook until yellow. Add tomatoes,
slice, add seasonings and beans and
cook, uncovered, over low heat 15
to 20 minutes until beans are ten-
der. Add more seasoning if
necessary.

Butterscotch Mousse

One-half c. light brown sugar,
2 tbs. butter or margarine, 6
tsp. water, 1 whole egg, 1 egg
yolk, few grains salt, 1 tsp. evap-
orated milk, chilled, 1/2 tsp. lemon
juice.

Combine sugar, butter and
water in top part of double boiler
and heat directly over flame to
the boiling point. Pour mixture
over beaten eggs, stirring vigor-
ously to keep smooth; add salt
and 2 tablespoons evaporated
milk. Return to pan and cook in
double boiler 5 minutes, stirring
continuously. Scrape down sides
of pan and beat until smooth; cool.
Chill evaporated milk in bowl sur-
rounded by chopped ice and salt,
whip until stiff; add lemon juice.
Dip a few spoonfuls of whipped
milk into cold butterscotch mix-
ture and beat until smooth; then
add all of butterscotch mixture to
whipped milk. Cut and fold
lightly but thoroughly until well
blended. Turn into cold freezing
pan and place in refrigerator im-
mediately. Require 3 to 6 hours to
freeze. Serves 6.

Bride Learns Economy

Mrs. Alexandra Potts (right), editor and brides' consultant, shows newly married Mrs. James G. Richardson, bride of an Army Lieutenant, how important it is to save waste kitchen fats urgently needed to produce glycerine for gunpowder and medicine. "Strain it into any clean can and take it to your meat dealer," Mrs. Potts is saying.

Fats Salvage Drive Lagging in Marion After Good Start

Housewives Urged To Increase Efforts To Save Waste Fats, Needed in War Industry.

Marion citizens in charge of the fats-saving program report that the program needs a good "shot in the arm" in order to maintain the fine record made in Marion during the past year.

Officials say the main reason for lagging of the program is the meat shortage which is being felt by housewives the country over. They also point out that most people do not eat as much meat in

the summer as during colder weather.

Because of these conditions tending to lower the supply of fats, officials are urging Marion women to make a special effort to contribute all the fats available and to guard against even the smallest amount of waste. Fats are vital in the making of glycerine, a critical war product.

Charles Buente, manager of the Whiteman Hotel and Tallow Co., which is the clearing place for all fats turned in, expects the program to pick up by next fall, when he believes greater quantities of meat will be available and people will be eating more.

In addition to serving as a key war material, fats are being used as an aid to the local canteen. Many women have already contributed the money they received for their fats to the canteen. This month, Mr. Buente reports, 98 pounds of fat have been received from this source and a \$5 check is being forwarded to the canteen.

Berlin Radio Reports Drop in Sub Sinkings

By The Associated Press
The Berlin radio testified today to a marked reduction in the efficacy of German submarine warfare last month, broadcasting a DNB dispatch which listed the U-boat toll of allied shipping in June at 20 ships totaling 107,000 tons, but implied this was only a temporary setback. The enemy claim represented less than one-seventh of the reported sinkings in March—149 ships.

The largest windmill ever built, with a capacity of 40,000 gallons an hour, stands in Golden Gate Park, San Francisco.

Sweets Aid Ration Meals

By ALICE DENHOFF

IF THERE'S a really handsome
dessert, most of us don't mind
it (so not overcook). Add fruit
even if the meat servings are slim
and 1 to 3 tablespoons lemon
juice, varying the amount accord-
ing to the acidity of the berries.
Cool, stirring occasionally. The
mixture will thicken as it cools.
Chill.

Rice and Raisin Pie

The children will enjoy some-
thing that is good for them when
you serve them a rice and raisin
pie. Wash 1/2 cup rice thoroughly.
Steam the rice and one cup raisins
in 2 cups milk 30 to 40 minutes
or until the rice is soft. Add one
beaten egg, 1/2 cup sugar, 1/4 tea-
spoon salt and 1/2 teaspoon vanilla.
Turn into a pie pan lined with pie
crust and bake at 425° F. for 30
minutes.

For another dessert full of good-
ness, beat 2 eggs lightly and mix
with a cup of milk. Make alterna-
ting layers of cooked rice and
chopped dates or raisins, using 2
cups cooked rice and 1/2 cup dried
fruit. Put honey over each layer
using 1/3 to 1/2 cup. Pour milk
and beaten egg mixture over all
and bake in moderate oven for 45
minutes.

Berries and Tapioca

Fresh berries combine beauti-
fully with tapioca. To serve 6 to 8
sweeten 2 cups strawberries, rasp-
berries or any other fresh berries
and let stand 1/2 hour. Drain; add
water to juice to make 2 1/2 cups.
Combine liquid, 4 to 5 tablespoons
quick-cooking tapioca, 1/2 cup
sugar and 1/4 teaspoon salt in
sauce pan and mix well. Bring
mixture to full boil over direct

heat, stirring constantly. Remove
from fire. The mixture will be
thin (do not overcook). Add fruit
and 1 to 3 tablespoons lemon
juice, varying the amount accord-
ing to the acidity of the berries.
Cool, stirring occasionally. The
mixture will thicken as it cools.
Chill.

Chocolate Rice Bavarian

Chocolate Rice Bavarian is just
right for a Springtime dinner. For
a serving, pour 1/2 cup cold water
in a bowl and sprinkle tablespoon
gelatin on top of water. Place
bowl in boiling water and stir
until gelatin is dissolved. Add to
one cup hot cooked rice, 1/4 cup
sugar, 1/4 teaspoon salt, 3 table-
spoons cocoa and tablespoon van-
illa. Beat well, cool, and when
mixture begins to thicken fold in
one cup of evaporated milk
whipped. Turn into mold that has
been rinsed in cold water or polo
in serving glasses. Chill and when
firm, unmold and serve with a
sauce.

Box Office Score Low for War Aid

134,578 Fans Pay \$147,391, Only Half of Last Year's Mark.

By JUDSON BAILEY
Associated Press Sports Writer

The major leagues scored 100 per cent for entertainment on the first of their two war relief days yesterday, but they failed to get more than a bare passing grade at the box office.

An assortment of doubleheaders, twilight and night games in eight cities drew 134,578 fans who paid \$147,391 into the treasury of National War Relief, Inc., and this might seem like a lot of people and a lot of money except that games for Army and Navy relief in the same cities last year netted \$289,412.

Under last year's arrangement, when clubs were permitted to pick their own rivals and choose their own dates, the Brooklyn Dodgers and New York Giants played each other and wrote out checks for \$50,000 in Brooklyn and \$17,000 in the Polo Grounds.

This year's plan of having all clubs meet on the same day had its good points, but it resulted in a rate of \$32,000 in Brooklyn and \$17,000 in New York.

Nevertheless, the major leagues still have another crack at matching last year's total war relief contribution of \$500,000 from 16 major league benefit games. The clubs which were on the road today will stage shows of their own on July 28.

At Brooklyn, before a crowd of 26,893 that was mesmerized by the tenor solos of Dixie Walker, the Dodgers handcutted the Cincinnati Reds twice 5-0 and 11-5. This boosted Brooklyn half a game ahead of the St. Louis Cardinals in the National league. Al-

BAGBY ALLOWS ONLY FIVE HITS BUT LOSES 3 TO 1 TO YANKEES

Nick Etten, National League Castoff, Accounts for All N. Y. Runs.

By The Associated Press
CLEVELAND, July 1.—The Cleveland Indians' Jim Bagby allowed the New York Yankees only five hits in 11 innings last night but a National League castoff handed the Tribe defeat as his fifth loss instead of his eighth triumph.

First baseman Nick Etten accounted for all of the McCarthy-men's runs in the 3 to 1 victory and collected three of the five blows Bagby doled out.

Nick's first hit was a home run smash into the right field seats in the second inning. His third safety was a double down the left field line that scored two more with the winning runs in the 11th.

The Indians contributed to their own undoing by exhibiting some unorthodox base-running and, failing to cash in on scoring opportunities.

Last night's stadium game attracted 22,914 customers who contributed approximately \$25,000 to the National War Fund, Inc. The clubs resume the series today at league park with Al Smith opposing Charlie Wenzel, the Yankees' prize rookie.

Reds Losing Race To Stay in Top Bracket

By The Associated Press
BROOKLYN, July 1.—Time is running out on the Cincinnati Reds' hope of proving themselves to be a first division ball club in the National league, and the Brooklyn Dodgers are doing nothing to hinder the running out of time.

Those two blisters the Dodgers gave the Reds yesterday dropped them below the .500 mark again and July 4, when ball clubs are supposed to be settling to their merited levels, is close at hand.

Bucky Walters is Manager Bill McKee's hope of turning the trend today, against Kirby Higbe for the Dodgers. Bucky is enduring a four-game losing streak of his own.

Yesterday's scores were 5-0 and 11-5. Curt Davis checked the Reds adequately in the opener, giving four singles and allowing no runner past first base. Johnny Vander Meer, who hasn't won a ball game here since his second no-hitter back in 1938, fanned eight but walked seven and the Dodgers put the game past his reach with three runs in the eighth.

Home runs by Dixie Walker and Paul Waner featured the Dodgers' 16-hit onslaught in the nightcap. Walker got two more hits for a perfect day at bat and drove in three runs, while Waner knocked in four.

HARDING BASEBALL LETTERS ARRIVE

14 Players and Two Managers Eligible for Awards.

Letters for 16 Harding High school baseball players have arrived at the school, Coach Vic Morris reported today. Letter-winners of the 1943 team should come to the school between 8:30 and 11:30 in the morning or between 1:30 and 4:30 in the afternoon this week to receive their emblems.

The following 14 players won letters in baseball this past spring: Robert Lee, Robert England, Calvin Scott, Don Richardson, Marshall Zuck, Don Shirk, Dick Mulvaine, Norman Dillinger, Jim Bowers, Robert Virden, Ralph Weber, Donald Kay, Charles Fazio, and Elvin Beach.

John Titus and Paul Barnhouse, managers of the team, are also eligible to receive letters.

Cleveland and Yanks Place Six Each on All-Star Team

By DAVE HOFF
AP Sports Writer

CHICAGO, July 1.—An American league all-star team heavily laden with New York Yankees and Cleveland Indians was created today from nominations submitted by the eight managers for the 19th annual game with the National league start July 13 in Philadelphia's Shibe park.

The Yankees and Indians each placed six players on the 25-man squad, which will be directed by Manager Joe McCarthy of New York, leaving 13 spots for men from the 12 other clubs.

These were taken by four Washington Senators, three Boston Red Sox, two St. Louis Browns and two Detroit Tigers, and one each from the Philadelphia Athletics and Chicago White Sox.

Twelve members of the American league team which beat the National last year in the New York Polo Grounds, 3 to 1, placed again, including New York Catcher Bill Dickey, nominated for the 19th straight time — he's been named for all of them — and Yankee second baseman Joe Gordon, for the 15th time. Dickey did not play last year because of injuries.

These were the managers' selections for 1943:

Pitchers — Spurgeon Chandler and Ernie Borgman, New York; Tex Hughson and Oscar Judd, Boston; Emil Leonard, Washington; Harold Newhouse, Detroit; James Bagby and Al Smith, Cleveland.

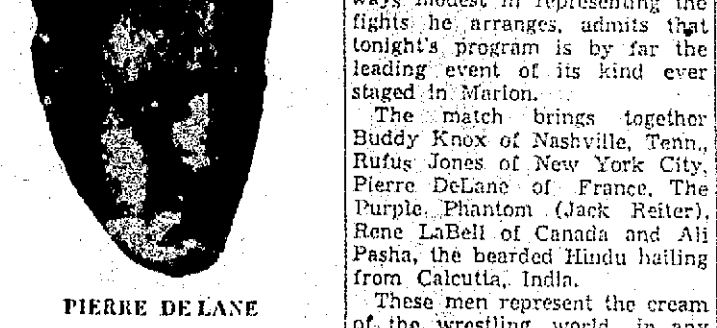

Catchers — Bill Dickey, New York; Buddy Rosar, Cleveland, and Jake Early, Washington.

Infielders — Ken Keltner and Lou Boudreau, Cleveland; Rudy York, Detroit; Joe Gordon, New York; Vernon Stephens, St. Louis; Dick Siebert, Philadelphia; Luke Appling, Chicago, and Bobby Doerr, Boston.

Outfielders — Charley Keller and John Lindell, New York; Chet Laabs, St. Louis; George Case and Bob Johnson, Washington, and Jeff Heath, Cleveland.

Coaches will be Lena Blackburne of Philadelphia and Art Fletcher of New York. Dave Keefe of Philadelphia was selected as pitcher and John Benitte of New York as catcher for batting practice. Eddie Froehlich of the Yankees was designated as trainer.

Nine of the 1942 American league All-Stars now are in the service, thus explaining some of the new faces in this year's team.

PIERRE DELANE

Highlight of tonight's Army wrestling program will be a battle royal, matching six of the nation's foremost grunt and groom stylists.

Promoter Les Fishbaugh, always modest in representing the fights he arranges, admits that tonight's program is by far the leading event of its kind ever staged in Marion.

The match brings together Buddy Knox of Nashville, Tenn., Rufus Jones of New York City, Pierre DeLane of France, The Purple Phantom (Jack Reiter), Rene LaBell of Canada and Ali Pasha, the bearded Hindu hailing from Calcutta, India.

These men represent the cream of the wrestling world in any weight class you'd care to choose. A number of grudges are likely to creep out in tonight's gang scrap. Watch for:

1. Jack Reiter, the masked sensation who lost to Rufus Jones, claims that he was fouled by the sepi-skinned New Yorker last week and is aching for a return crack.
2. Similarly Pierre DeLane, who crashed the Marion scene only recently in a fight with Joe Maisch, claims he was fouled in his initial start here — not by Maisch but by the management. He contends that Promoter Fishbaugh matched him with too heavy an opponent. Formerly DeLane was one of the outstanding heavy weight fighters but a severe illness several years ago cut him down to a lighter class.
3. Ali Pasha has a grudge but he won't tell what it is. Match maker Les Fishbaugh said he recently received word from the Hindu asking to be matched once again in Marion. "The bearded fellow claims that something was screwy in his last match here," Fishbaugh said. The Hindu has become famous the world over for stunts like this one — so watch out.

The first two men to lose out in tonight's action will not return for further work but the next two will come back for the 45-minute semi-final scrap. The finalists will return to decide the championship in the two-hour main event. The battle royal will begin promptly at 8:30 in the West Church street gymnasium.

UNWANTED DAHLGREN LANDS BERTH WITH N. L. ALL-STAR TEAM

Leading Batter Makes Him Sure Selection for July 13 Game.

By The Associated Press
NEW YORK, July 1.—A new chapter in the baseball life of Ellsworth "Babe" Dahlgren, the player no one wanted until he joined the Philadelphia Phillies, will be written in Philadelphia's Shibe park the night of July 13.

The Babe, leading National league hitter, was one of a squad of 25 picked yesterday to represent the senior circuit in the annual all-star baseball game that night against the American league All-Stars.

It is the first time that Dahlgren has been named for the mid-year classic. If he plays as he has for Bucky Harris' rejuvenated Phillies he may easily be the star of the game.

The team roster:

Pitchers—Morton Cooper, Max Lanier and Howard Poller, St. Louis; Truett "Rip" Sewell, Pittsburgh; Claude Passeau, Chicago; Johnny Vander Meer, Cincinnati; and Al Javery, Boston.

Catchers—Walker Cooper, St. Louis; Mickey Owen, Brooklyn, and Ernie Lombard, New York.

Infielders—Babe Dahlgren, Philadelphia; Frank McCormick, Lonnie Frey and Eddie Miller, Cincinnati; Martin Marion and George Kuroski, St. Louis; Billy Herman, Brooklyn, and Stanley Hack, Chicago.

Outfielders—Stan Musial and Harry Walker, St. Louis; Vince DiMaggio, Pittsburgh; Billy Nicholson, Chicago; Mel Ott, New York; Fred "Dixie" Walker and Augie Galan, Brooklyn.

Batting Practice Pitchers—St. Johnson, Philadelphia and Clyde Shoun, Cincinnati.

Batting Practice Catcher—Virgil "Spud" Davis, Pittsburgh.

Coaches—Mike Gonzales, St. Louis, and Frankie Frisch, Pittsburgh.

Insurance—Every kind—Surety Bonds. Costs are low. Safety and satisfaction. See us for War Damage Cover. "Don't make it too little or too late."

St. Mary Beats Presbyterian Team 21 to 20 in Wild Outbreak of Scoring

Game Goes Into Extra Innings After Count Is Tied 15-15, Epworth Defeats Greenwood, 6-0.

In a wild scoring orgy, in which 41 runs were home plate and 35 hits were cracked out in eight innings, St. Mary's edged an extra point to down Presbyterian at McKelvey park last night in a Sunday School league softball game 21 to 20. In a second game a different from the first as black is from white, Epworth shut out Greenwood at Lincoln park, 6 to 0, to make the wonderful one all-barking of Bob Virden.

Although practically every softball contest that has been played has been featured by high scoring, last night's outlandish totals take the cake.

The way the Saint-Prebble game started, it looked as if it would be a respectable pitchers' duel for the first week a mere 10 to 0 lead at the end of the first. However, through power at bat and some of the vaunted luck of the Irish, St. Mary's steadily increased its lead until the scoreboard read 10 to 0 going into the Presbie half of the fourth.

Presbyterian broke the scoring ice at that point and kept on making runs until the game was tied at the end of the regulation seven innings, 15 to 15.

In the first half of the eighth, Presbyterian scored five runs to go into a 20 to 15 lead which looked safe enough. However, in the bottom half of that stanza, the Saints broke loose with six tallies to win the tilt. Gene Norris, Irish right fielder, furnished the single that sewed the game.

Epworth went further into the lead of the Sabbath loop by defeating Greenwood. Bob Virden struck out four men in hurling this one-hit game and his third win of the season. His performance last night was the best pitching job of the season thus far and labies him as the number one find of the year in church softball.

Virden faced only 22 Greenwood batters, one over the minimum 21 for a seven innings game. The one hit off him came in the first of the sixth when Greene

Score by innings:
Greenwood . . . 000 0-0 1 1
Epworth . . . 100 010 4-6 8 1
Batteries: Greenwood — M. Donohue and R. Donohue; Epworth—Virden and Kelly.
Presbyterian 000 450 05—20 17 3
St. Mary's . . . 160 211 15—21 18 4
Batteries: Presbyterian — R. Bourn and Fazio; St. Mary's—Berridge and Moran.

"NOTHING BETTER" to relieve torture of ATHLETE'S FOOT

so many druggists say!

The first applications of wonderful soothing highly medicated liquid Zemo promptly relieve the itching, burning soreness and thus give the raw, cracked skin between toes a chance to heal faster. Zemo—a Doctor's formula backed by 55 years amazing success—is one product that really works. Get Zemo today! At all druggists.

Pitfalls of Love

By ADELE GARRISON

DICKY could not say "Touché" to Katharine, but I knew that he was good sport enough to wait for her mentally, as he squared his shoulders to meet my father's momentary irritation.

"There isn't much to plan, sir," he said, "except to be sure that the wideness woman isn't accompanied by any strong arm escorts."

My father nodded.

Guards To Be Present

"That will be attended to," he said. "I don't think she will bring anyone with her to your door, but if she does, there will be guards in the hall. When you open the door so far as the night chain will permit, you can tell the lady that she may come in, but that Mrs. Bickett is ill, and you cannot have more than one person coming into the apartment at a time. Then she can take her choice of coming in alone, or of going away again."

Dicky's face registered a distinct hope that Ruth would not go away, but wisely went on:

"If she comes in, then what?"

"I'll engage her in conversation," Dicky said, "and watch for her cues. I'll also watch for any stray stiletto or pistol she may have concealed in her clothes."

"But," he went on, "as I told Mother a little while ago, I think we ought to have a couple of men concealed on that balcony outside."

"I agree with you," my father said promptly. "That's a very good idea, and it will be attended to at once." This one held only approval now, and I saw that his irritation had vanished. "Anything else?" he asked crisply.

"I can't think of anything," Dicky said. "As I understand it, you don't want her to see Katharine, and you want me to detain her until she is rather desperate with impatient anger. I hope I can do a satisfactory job," he concluded.

"I am confident you can," my father assured him. Then he turned to Katharine.

"What about you?" "Where do you plan to be? With Margaret?"

"No, indeed," Katharine told him. "I want to be as far away as I can get, out of sight and out of hearing. I'm going into the bedroom and lock the door."

"I have a better plan," my father said. "I shall tell Milner that I intend to sleep in the suite next to this tonight and that I do not wish to be disturbed. Then you can go in there, and go to bed if you wish. Lock yourself in, and you will be completely out of this."

Will Have Box Seat

He considered for a second, and then looked at me with a whimsical smile. "I think I'll provide myself with a box seat for this performance, if you don't mind, Richard," he said.

I guessed that Dicky had winked at the idea, but, after all, it did not matter, and I knew that the thought of a hidden audience would spur him instead of hampering him, so I did not waste any sympathy on him.

"Of course, I don't mind," he said cordially. "Anywhere you wish."

"Then I think I'll take the bedroom," he said. "I'll turn the lights out and leave the door ajar. When she knocks, I'll slip into one of the closets, for fear she might take a notion to look into the bedroom. Then when she's settled, and talking, I can slip out again. I can be noiseless, you know."

We did know. He can compete with an Indian in his stealthy movements, and Dicky voiced the thought of all of us:

"She'll never hear you," he said. "and I shall be glad to have you there."

Needs Further Data

"I wouldn't bother," my father answered, "except to give me a

YOUR HEALTH

By LOGAN CLENDENING, M. D.

Mind in Illness

YESTERDAY we discussed briefly a new department of modern medicine called psychosomatic medicine. It can hardly be called a specialty because it applies to nearly every patient. The very name indicates that the physician should study the personality, mind and soul of the patient, as well as his physical health.

These are very few diseases in which the mind of the patient plays no part whatever in the symptoms of the disease. Perhaps an acute disease like measles or pneumonia may be regarded purely from the physical standpoint and treated with that in view, but in general the old maxims to the effect that "What the patient thinks about his disease may be almost as important as the disease itself" and "We want to know first what kind of disease the patient has and what kind of patient this disease has."

The importance of this viewpoint is that the physician can always do something about the patient's opinion of his disease and outlook on life even if he can do little or nothing about the disease itself. In looking over a recent textbook on psychosomatic medicine I find that it has chapters on diseases of every system in the body—the heart, the digestive system, the endocrine system, the lungs.

Our mental habits are fixed in childhood and it is not surprising to find the following statement in this book on psychosomatic medicine: "Most of the leading problems in infancy are of emotional origin." That may come as a surprise to some people but not to an old family physician. Even in childhood remember that the digestive system is more than any other part of the body disturbed by unpleasant emotional stimuli.

Tantrums in childhood may lead to a habit of mind which is disturbing to happiness in later life in many ways. The tantrums may turn into something that looks like an organic disease. Many a chronic dyspeptic who contacts himself with the idea that his stomach is "weak" and that he

Daily Pattern For Home Use

By ANNE ADAMS

4440

Get ready for the "dog days" with this cool, saucy pinafore. Such fun to make and so easy! Anne Adams Pattern 4440 may be sleeveless or sleeveless. Use gingham or chambray, or... for something really special, try colorful flowered chamois.

Pattern 4440 is available only in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42. Size 16 requires 3 1/2 yards 35-inch. Size 18 requires 3 1/2 yards 35-inch. Send 16 cents in coins for this Anne Adams pattern. Write plainly size, name, address, style number.

Plan your warm weather wardrobe from Anne Adams Summer Pattern Book! Ten cents more brings you this new book.

Send your order to The Marion Star, Pattern Department, 243 West 17th St., New York, 11 N. Y.

has ulcer is often an example of tantrums, which have become fixed in the digestive system.

Our personalities stop over and influence not only members of our household, but nearly all our possessions. As Allen Holden said of the man and his horse, "Got it judge the owner as well as the horse, and if there's anything the matter with his conscience it'll come out in the horse somewhere." The same thing is true of parents and children.

Experiences later in life also tend to show a person either to be a state of semi-involvement or away from it. A person who has had a healthy, happy childhood under the direction of wise parents with carefully supervised nutrition, who finds success in adult life is unlikely to drift into any functional illness, either psychic or somatic.

On the other hand, even with the best and healthiest childhood, a business reverse, an unhappy love affair, a series of unsuccessful marriages, any of the larger experiences in emotional life can turn even a naturally cheerful and healthy person into a brooder and a self-doubter, which emotional state may be presented to the world in the form of some functional disturbance such as dyspepsia, blood pressure upset, neurasthenia or headaches—all of which are within the field of psychosomatic medicine.

QUESTIONS AND ANSWERS

R. G. A.: What is meant by bilateral nerve deafness? What

causes it and what can cure it in a young person of twenty-one?

Answer: In general, there are two kinds of deafness—one, of common form, that is due to a chronic inflammation of the middle ear. In this form the nerve is intact, but the ear drum is stiff. In another form the receiving organ, the labyrinth, is degenerated; this is called nerve deafness. Bilateral means that it is on both sides. The cause of bilateral nerve deafness may be either congenital or it may be some infectious disease—scarlet fever, measles, mumps, diphtheria or such. Rarely the nerve itself is the seat of a tumor.

Nevada Resident And Minister To Marry

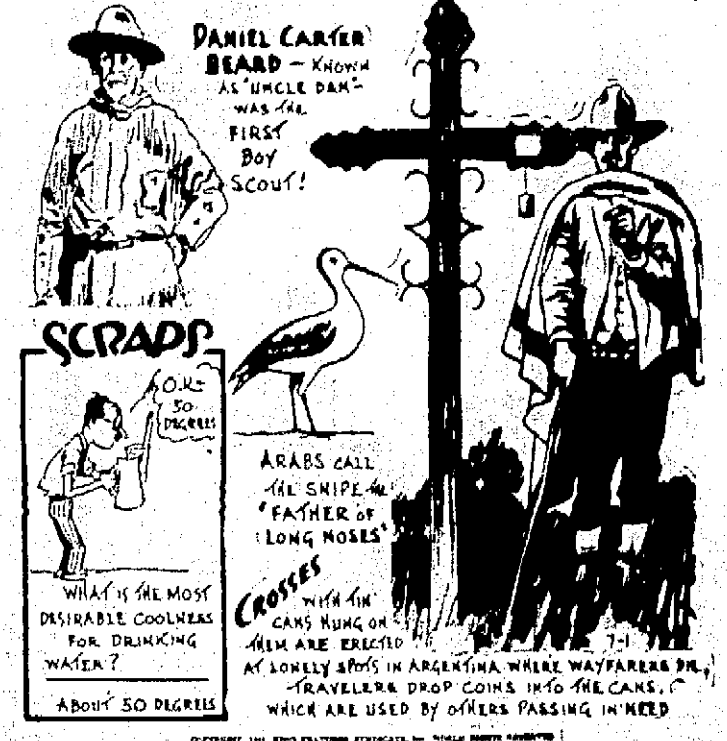

Special to The Star

NEVADA — Mr. and Mrs. Luther E. Egan announce the engagement of their daughter, Miss Marjorie Jean, to Rev. Edward H. Orinson, son of Mr. and Mrs. William S. Orinson of Midland Heights, O.

Miss Egan is a graduate of Nevada High school and is engaged in defense work in Mt. Gilead. Rev. Orinson is pastor of the Nevada Evangelical Lutheran church. He is a graduate of Willingboro college and Hamma Divinity school at Springfield. He belongs to the Pi Kappa Alpha, social fraternity, and Theta Alpha Phi, honorary fraternity. The wedding will be an event of late summer.
